Hi Michael – Thanks again for your patience and for your reminder; I apologize for not closing the loop sooner.

I've attached two .zip files with the lab EDDs. One, titled "Unvalidated EDDs," are the lab EDDs. A second, "Validated EDDs," are the lab EDDs but also include our validator's flags and comments.

Let me know if you have any questions.

Rob

Mr. Parker,

Just circling back to see if you had a chance to look into the data from the CFAC investigation? Also, I wanted to note that we don't need any tables or post processing. We could take the raw edd and import to our database if you have that. Thanks.

Hey Michael – Just wanted to circle back with you and let you know that we have the lab data in our database, but I'm out of the office until Thursday. Is it alright if I send it to you then?

Thanks,
Rob

Subject: CFAC Site Reassessment Lab Data (Weston 2014)

Mr. Parker,

Roux is working with Mike Cirian on the Columbia Falls Aluminum Company (CFAC) RI/FS. We are hoping to add the lab data from the Site Reassessment work performed at CFAC (Weston, 2014) to our database so that the data can be referenced during the RI/FS. We have a pdf copy of the Weston report,

but we were hoping to get a copy of the laboratory EDDs. This would make importing the data into the database much easier.

Mike Cirian mentioned that you would be the person to reach out to for this request. Please let me know if this is something you can help with or if there is someone else I should contact.

I appreciate any help you can provide. Thank you.
